Why MSP?

Today's organisations are subject to continual change. There are many contradictory drivers for change include innovations in technology, working practices (outsourcing and partnerships), mergers & acquisitions, increased demands from regulation, and for the government, the delivery of policy driven by changing political parties or ministers. Programme Management (MSP) is increasingly being recognised as a key tool to enable organisation to deliver their defined objective and manage these Transformation Changes at a strategic level, so that the organisation can achieve benefits and improvements in its business operation.

MSP is a proven programme management good practice in successfully delivering transformational change. MSP is non-proprietary methodology.

Info Spec is accredited by PEOPLECERT as an Accredited Training Organization for PRINCE2®, MSP®, P3O®, MoP® training.

Accredited MSP® Foundation & Practitioner Level

Overview

Managing Successful Programmes is definitive guidance in managing inter-related projects as a coordinated programme of business change in order to manage risks and benefits more effectively.

This MSP training covers the MSP guidance & approach that can bring numerous far-reaching benefits to your organisations:

It ensures that:

- Programmes and Projects are planned effectively so they deliver the outcomes & benefits on time and on budget
- Keep a clear focus on outcomes
- Respond to ongoing changes inside and outside the organisation
- Define responsibilities and lines of communication
- Provide a framework for engaging and involving stakeholders
- Analyse and manage risks effectively
- Audit and manage quality.

Course Objectives

- Provide Delegates with an understanding of the benefits and principles underlying a structured approach to programme management.
- Apply the principles of MSP to a programme within a work environment.
- Operate effectively with colleagues and managers within a structured programme and project management environment.
- Enable delegates to understand the MSP framework to be prepared to sit the MSP Foundation & Practitioner exams.

Success in the Foundation & Practitioner Exams provides candidates with the pre-requisites required to sit the MSP Advanced Practitioner exam (separate course).

In-House Training

The tailoring of the MSP certification programme for all our in-house training is complimentary. We highly recommend that you take this option.

We can swiftly build the tailored private programme using detail about your organisation, its culture, infrastructure, issues, project materials etc, to be used as real life working examples.

Who Should Attend ?

- All levels of the Programme Management Team Members
- Programme Managers & Programme Support team members
- Senior Managers from any discipline, eg, Portfolio Manager, Service Delivery Manager, experience Project Managers, etc
- Significant stakeholders in business change
- Any Individual who needs to use the MSP framework to implement business strategies, policies and initiatives, or large scale change.

Approach

The event will be delivered by an approved MSP Trainers with practical experience of using the MSP method over a wide range of programmes & projects.

The style of delivery will be instructor-led with the trainer taking attendees through each Principle, Governance theme & Transformational Flow of the MSP framework and illustrating each key point with examples.

Practical Work

A specially written scenario runs throughout the course. A comprehensive set of tasks help to provide practical application of the MSP Framework & concepts learned.

Joining instructions including pre-course study pack and MSP manual are sent out approximately 1-2 weeks before the course start date. Typically pre-course preparation will require 8-10 hours of study.
